

Media Release

April, 2010

Payroll Solutions Canada Inc. Workforce Time and Labour Management (TLM) Version 7.06 Released featuring Multi-Browser Support.

GUELPH, ON, April 1 /CNW/ - Payroll Solutions Canada Inc. (PSC) has released its latest version of PSC Workforce TLM, V7.06. This new version continues to use web 2.0 technologies with an integrated ORACLE database that now features Multi-Browser Support.

Some of the enhancements are listed below:

- Firefox 3.5, Safari 4.0 and Internet Explorer 7.0 or 8.0 are supported
- Safari is supported from the PC or MAC Version
- You can mix client browsers, so any or all can be used on a single server
 - Safari is by far the fastest browser and Firefox is by far the slowest
- Enhanced Cosmetic and Security changes in version 7.06 include:
 - Four different data formats
 - Three different time formats
 - Twelve different skins

About PSC
