

October 2008: Payroll Solutions Canada Inc. Workforce Time and Labour Management (TLM) VERSION 7.05 RELEASED WITH OVER 250 NEW FEATURES

GUELPH, ON, Sept. 30 /CNW/ - Payroll Solutions Canada Inc. (PSC) released its latest version of PSC Workforce TLM. The new version 7.05 continues the use of web 2.0 technologies with an integrated ORACLE database and enhances the robust feature list with over 250 new capabilities and functions.

Some of the major changes are listed below:

- Job Costing
- Updated Canadian Payroll Policies
- Simplified Installation Process
- Higher Security Standards
- Added Ease-of-Use Features
- Human Resources (direct deposit, tax info, workers comp, benefit plans, termination reasons and EEO.)
- Intuitive System Configuration (Enhanced warning levels around the creation of vital company rules.)
- Multilevel supervisor time card reviews
- New Clocks Supported

About PSC
