

# PSI PaySolution™

PSI PaySolution™ is payroll software developed by Canadians for both the North American and International marketplace. Borne out of a partnership between accountants and payroll programmers, PSI PaySolution™ is robust enough to handle large complex payrolls, yet its simplicity makes processing smaller payrolls effortless.

## PSI PaySolution™ incorporates quality features

- ▶ Web based for 24/7 access
- ▶ A comprehensive standard reporting package including payroll register, deposit register, remittance report, labour distribution and invoice, easily augmented by custom reports on request
- ▶ Carbon mitigating options including online pay statements and tax forms
- ▶ 7 year on-line archiving of payroll data

## PSI PaySolution™ is flexible

- ▶ Able to accommodate organizations of any size or complexity
- ▶ Adaptable – PSC PaySolution™ can be offered in a licensed format
- ▶ Reliable – a proven solution since 2001
- ▶ Cost effective and convenient – reducing time, effort and resources required to process payroll

## PSI PaySolution™ is supported by superb service

- ▶ A personalized and intimate service structure established through dedicated account service personnel
- ▶ Certified professional personnel educated in payroll and Human Resource Management
- ▶ Adaptable service philosophy that allows for exceptions and emergency scenarios

## PSI PaySolution™ is secure

- ▶ 128 bit encryption
- ▶ Data housed at a world class data center
- ▶ Full data backup and redundancy
- ▶ User ID/password – can restrict access by payroll or even by user functions
- ▶ SAS70 Certified

## PSI PaySolution™ is part of a holistic approach

- ▶ We deliver Workforce Solutions that fit – not a “one size fits all” approach
- ▶ Integrated method to time capture payroll processing and Human Resource Management
- ▶ We understand that business needs are not static – as organizations evolve they require adaptable partners with adaptable solutions
